# Shocking Information About Power Surges In Your Home.

## SurgePRO™ Real Surge Protection From CU.

Power surges can strike at any moment and destroy or damage phone lines, sensitive electronics, computers, appliances, or anything plugged into an electrical outlet. Preparing for these unexpected surges can save you expensive repairs or replacement costs.

Lightning is usually the cause of power surges; however, tree limbs falling onto power lines, construction work, demand fluctuations in your home, auto accidents involving utility poles, and even disturbances transmitted through telephone and cable lines can have the same effect.

**Powermax® 8 AC  
Protection for  
eight AC lines.  
\$34.95**

At City Utilities, supplying you with reliable and uninterrupted electric power is always our top priority. That's why we offer our SurgePRO system.\*

There are three levels to the SurgePRO system. The first makes sure your home has proper grounding. The second is a meter-based surge protection device that covers your home's electrical system. The third consists of various SurgePRO protector strips for power surges originating inside your home.

\*Please note: SurgePRO and other surge protection equipment do not prevent power outages.

**Powermax 8 TEL  
Great protection  
for your computer.  
\$39.95**

### Level 1 Protection.

A CU technician will perform a grounding assessment of your home and suggest any corrections, if needed.

**Surge protection  
at your electric meter.  
Installation fee:  
\$25.00  
Monthly service fee:  
\$4.95**

### Level 2 Protection.

A CU technician will install a surge protection device between your home and the meter to provide your first line of defense against power line surges. This protects your electrical system against surges up to 57,000 amps originating outside your home and includes a \$5,000 per occurrence connected equipment warranty.

The meter adapter is economical and relieves worries and major inconveniences by protecting motor-driven appliances you depend on every day, including:

- Refrigerators
- Freezers
- Washers and dryers
- Dishwashers
- Garbage disposals
- Electric ranges
- Central heating and air conditioning units (motor only)
- Garage door openers (motor only)

**Powermax 8 DBS+3  
Multi-use protection  
for a variety of needs,  
including satellite  
TV connections.  
\$69.95**

### Level 3 Protection.

Power surges may also originate inside your home. Level 3 of our SurgePRO system incorporates various SurgePRO protector strips against these types of surges. They also carry an excellent warranty plan and provide a second buffer against any external spikes.

SurgePRO protector strips are designed to protect sensitive equipment such as:

- Computers
- Modems
- CD players
- Phone lines
- Cable TV lines (coax)
- Printers
- VCRs
- Televisions
- Fax machines
- Copiers

**Powermax 8 COAX
