

**CITY UTILITIES OF SPRINGFIELD MISSOURI
OPTIONAL RIDER C
RENEWABLE ENERGY**

Applicability

Under this Rider C, City Utilities will provide Renewable Energy in 100 kilowatt-hour blocks. Renewable Energy, as used in this schedule, shall mean electricity derived from renewable energy sources such as solar, wind, low-head hydro, geothermal or biomass. Customers electing to receive service under this rider will remain on this rider for a minimum period of one (1) year.

Availability

Service under this rider shall be available within the corporate limits of the City of Springfield, Missouri, and the adjacent territory served by City Utilities by the Residential Electric Service Rate, General Lighting Service Rate, General Power Service Rate, Large General Power Service Rate, and Large Power Service Rate. This Rider is subject to the availability of Renewable Energy and City Utilities does not commit to acquire additional Renewable Energy resources should Renewable Energy subscriptions exceed available supply. Availability is subject to the General Terms and Conditions Governing Electric Service and the Utility Service Rules and Regulations.

The charge under this rider for a 100 kWh block is the additional cost of Renewable Energy and shall be in addition to charges for service under other applicable electric service rates.
