## Rebate Process

1. Select an electrician licensed in the City of Springfield, Missouri
  - City Utilities recommends getting at least 2-3 different bids. For information on how to select a qualified contractor, or to view the City Utilities Electrical Contractor list, visit [cityutilities.net/save/contractors](http://cityutilities.net/save/contractors).
2. Complete the 240V outlet upgrade and/or installation of the EV charger.
3. Submit the following information:
  - Rebate application with the customer's signature
  - Copy of licensed electrician invoice with installation date and/or itemized purchase receipt of qualifying equipment

*Please allow 3-5 weeks to receive approved rebate.*

Mail to:

- Outlet must be installed during the building process, be connected and operational prior to occupancy.
- Builders may receive up to two (2) rebates per service address.

## Guidelines

- 1. Residential EV Home Upgrade and EV Charger must be purchased and installed May 1, 2022, or after.**
- 2. Application must be submitted within 90 days of purchase and installation date.**
- Existing residential customers with City Utilities electric service are eligible for an EV Home Upgrade and EV Charger rebate of 50% of the cost of the EV charger up to \$500, and a rebate of 50% of the installation of a 240V outlet, up to \$500.
- Residential new construction dwellings with an attached garage and City Utilities electric service are eligible for an EV-Ready Home rebate of up to \$100, not to exceed the outlet and installation cost.
- Customers may receive up to two (2) outlet rebates per service address and up to two (2) Level 2 charger rebates per customer.
- The applicant must be the customer of record for an active, non-delinquent account.
- The EV charger must be a Level 2 Wi-Fi enabled charger.
- All Level 2 EV chargers must be new.
- The installation must include a 50-amp branch circuit equipped with a NEMA 6-50 or NEMA 14-50 receptacle to accept a Level 2 EV charger.
- EV Home Upgrade must be installed by a professional licensed electrical contractor in accordance with City of Springfield and Greene County electrical regulations.
- EV-Ready Home outlet must be installed during the building process, and be connected and operational prior to occupancy.
- 12. Copies of installer itemized invoice and/or purchase receipt must be submitted along with a completed rebate application form.**
- 13. By receiving this rebate, the customer agrees to enroll in a Time of Use rate or demand response program when made available by City Utilities. For more information, please contact Energy Services at (417) 874-8200.**
- Failure to provide required information may result in denial of the rebate.
- Rebates are awarded on a first-come, first-served basis until program funds have been depleted.
- The applicant agrees that work completed complies with all federal, state, and local safety, building, electrical and environmental codes. All necessary permits and/or inspections are the responsibility of the customer.
- City Utilities is not responsible for the performance of the outlet or charger, and does not provide any warranties, expressed or implied.
- City Utilities reserves the right to inspect the installed rebated premise and equipment. If the premise does not have the qualifying equipment installed, the rebate may be debited to the electric account.
- By receiving this rebate, the customer intends to utilize the 240V outlet for a Level 2 EV charger.
- 20. City Utilities reserves the right to amend or discontinue this program without notice.**
